

## Tailored Reports

Reports are specific to address the needs of mobile clients...

- Report language specifies definite findings vs. 'probable' findings
- Customized report formats that specify information required for quick patient care decisions
- Appropriate recommendations for follow-ups

## Peace of Mind

- Dedicated toll-free number with a live human who is always available to assist you
- Centralized email address for all your communication, avoiding the need for remembering multiple contacts
- Easy to use, hassle-free technology
- Straightforward billing process that is easy to verify
- Credentialing staff to speed up any paperwork process
- Access to interpreting physicians for consultations or questions

## What Our Clients Think of Us...

*"We are very impressed with the technology that Advanced Telemed Services has as well as the personal services and accurate reporting"*

*"We have been very impressed with the precision and timeliness of the reports. Their reports are quick, to-the-point and perfect for my mobile company. The staff is also very experienced, professional and personable"*

*"We are impressed with the ease of using Advanced Telemed Services for our radiology needs. Their services are timely and accurate. Our patients are very pleased"*

*"The radiologists are superb in their expertise in providing quick and accurate radiology reports. The support staff provides exceptional administrative support"*

*"The setup with Advanced Telemed Services was seamless and they ensure I have my report real time"*

*"Advanced Telemed provides excellent echo reads. They went out of their way to help my technologists understand things. Their radiologists are willing to spend time training our team to deliver the best patient care"*

Mobile Companies*

## ABOUT US

Advanced Telemed Services provides image interpretation services through teleradiology on behalf of mobile clinics throughout the United States. Covering all 50 states, our U.S. Board Certified, fellowship-trained radiologists deliver the accuracy and level of detail you need to ensure a high standard of patient care. Our teleradiology services cover all modalities and reports are fast, clean and answer the clinical question. Contact us today to learn how we can assist you in providing the best possible care for the patients you serve.

## WHY CHOOSE US FOR YOUR MOBILE COMPANY?

Right Physician Team

Rapid Turnaround Times

Mobile Company-Centric Workflow and Report Delivery

Radiologist Access

Competitive Pricing

Peace of Mind

Server Reliability

## Right Team of Physicians

### Our team of physicians...

- Have over a decade of experience in reading high volume cases for mobile companies
- Are American Board Certified and include both radiologists and cardiologists
- Can cover all necessary modalities for mobile companies including X-rays, Ultrasounds, Echos, EKGs, MRI, CT and Mammography

## Mobile Company-Centric Workflow

### Our physicians are fully complemented with a well-proven and customized workflow for mobile clinics...

- Clinical workflows established upfront to ensure reports are read quickly
- Report delivery via multiple options including auto-faxing, email notifications, HL7 or online access
- Real-time case tracking to ensure any missing cases are caught immediately
- Constant tracking of cases by dedicated staff
- Real-time transcribing of reports for quick report delivery

## Turn Around Times

- Rapid TAT for all cases
- Dedicated full-time staff with a full backup of radiologists ensures we deliver on our commitment to TAT
- Trained staff that have years of mobile radiology workflow experience to ensure cases are read quickly and efficiently

## Competitive Pricing

- Our low overhead and customized workflow allows us to offer competitive pricing without a compromise on quality
- No hidden costs and completely transparent pricing
- No added costs for sub-specialty radiologists
- No sudden price increases—we deliver what we promise at the price we promise

## Server Reliability

- HIPAA compliant and fully secure servers
- 24X7 tech support including live human availability
- Redundant servers with fail over configuration
- Strong mechanisms and processes to protect data security
